

Mohammad Saiduzzaman Sayed

Motion Graphics Designer, Lead Bangladesh, Chattogram, Bangladesh
sayedwex@gmail.com — [Google Scholar](#) — [LinkedIn](#) — [Orcid](#) — [Portfolio](#)

RESEARCH INTERESTS

Data Science, Time-Series Forecasting, Big Data Analytics, LLM, Healthcare

EDUCATION

Jahangirnagar University, Dhaka, Bangladesh June 2021 — September 2022
Masters in Applied Statistics and Data Science Cumulative GPA: 3.81/4.00
Thesis Title: Forecasting Myocardial Infarction occurrences in Chittagong
Metropolitan Area: An application of the Time Series Model

University Of Science & Technology Chittagong, Chattogram, Bangladesh January 2015 — June 2019
Bachelor of Science: Computer Science and Engineering

RESEARCH EXPERIENCE

ELITE Research Lab August 2026 — Present
Student Researcher

- Developed foundational research skills through structured research training.
- Participated in collaborative research discussions and developed skills in academic writing and research methodology.

ACADEMIC EXPERIENCE

Lead Bangladesh Chattogram, Bangladesh
Motion Graphics Designer August 2024 — Present

- Designed and produced data-driven visual content and motion graphics for digital communication.
- Translated complex information and concepts into clear visual narratives.
- Collaborated with multidisciplinary teams to develop research, educational, and communication materials.

Catalyst Solution Chattogram, Bangladesh
Data Artist (Associate) September 2022 — July 2024

- Analyzed historical datasets and developed data-driven charts to identify and communicate patterns and trends.
- Organized, cleaned, and manipulated datasets using Microsoft Excel to support research and analytical activities.
- Designed data-intensive charts and developed analytical presentations using Microsoft Excel and Microsoft PowerPoint.
- Performed statistical tests to examine relationships and differences between variables.
- Conducted quality-control checks on online surveys by reviewing survey logic and questionnaire structures to ensure alignment with clients' research objectives.
- Validated survey data and identified inconsistencies to improve the accuracy and quality of research outputs.

PUBLICATIONS

Journal paper (Published)

- **Sayed, M. S.**, et al. (2024). "A Novel Deep Learning Approach for Forecasting Myocardial Infarction Occurrences with Time Series Patient Data." *Journal of Medical Systems*, 48, 53.
DOI: <https://doi.org/10.1007/s10916-024-02076-w>

First Author — Peer-Reviewed — Scopus-Indexed — Q1 Journal

Manuscript in Progress

- **Sayed, M. S.**, et al. "A Multivariate Statistical and Deep Learning Framework for Climate Classification and Rainfall Prediction"

Creative Publications

- **Sayed, M. S.** (2024). "Human Body Activity Book for Kids: This Book Will Help You to Learn with Fun About Human Organs, Structures and Components." *Independently published through Amazon Kindle Direct Publishing (KDP)*, ISBN: 9798874159511

PROJECTS

Deep Neural Network and Convolutional Neural Network Models for MNIST Classification

- Implemented and compared different loss functions to investigate their effects on model performance.
- Evaluated different optimization methods and analyzed their impact on training convergence and classification accuracy.
- Compared DNN and CNN architectures using appropriate evaluation metrics.
- Analyzed model performance to identify effective combinations of architectures, loss functions, and optimization methods.

COMMUNITY ENGAGEMENT & PARTICIPATION

- **Be Researcher World Forum (BRWF)**
- **5th Bangladesh Chemistry Olympiad**, Bangladesh Chemical Society

AWARDS

Best Student Performance Award - BSB Foundation & Cambrian College

Awarded for achieving GPA 5.00/5.00 in the Secondary School Certificate (SSC) Examination.

Chattogram Kindergarten Association Scholarship

Awarded for outstanding academic performance in the Primary Scholarship Examination.

Exceptional Talent Recognition - Lead Bangladesh

Recognized for outstanding contribution to animation and visual communication.

TEACHING EXPERIENCES

Liberal International School

Academic Instructor

Chattogram, Bangladesh
November 2025 — Present

- Assessed student performance through classwork, assignments, and examinations.
- Provided academic guidance and feedback to support students' learning and development.

SKILLS

- **Machine Learning & Deep Learning:** Time-Series Forecasting, Classification, Clustering, Neural Networks
- **Programming & Data Analysis:** Python, R, SQL, Microsoft Excel
- **Frameworks:** TensorFlow, Keras, PyTorch, Scikit-learn
- **Creative & Visual Tools:** GitHub, Power BI, Adobe After Effects, Adobe Illustrator, Adobe Photoshop
